

## 2020 ROSSO

It's been a while since this cuvee was released (2017 was the last one)  
This wine is intended to be 100% Glou Glou !

The idea was to make a chilled red as accessible and drinkable as the Fistful of Flowers is.  
It's been a difficult couple of years for a lot of people. Having affordable wines that don't  
require too much thinking about is important.

A blend of Malvasia, Schioppettino rosé & Syrah all grown in rocky, red volcanic soils.  
It is designed to be served chilled and can happily be consumed over a couple of days and  
shows very well on day two.

It is an energetic, slightly wild & very refreshing wine. Acid driven and medium to light  
bodied in nature, and in saying that it also has some good underlying complexity and  
layers of fruit that show through.

Don't over think it. Chill it down. Drink it.
