

WHITE FRONTIGNAC 2022

The versatility of White Frontignac, a pioneer Barossa variety, has seen it survive over 150 years of economic boom and bust, plus several changes in customer taste. Ours is made in a style that faithfully reflects our own Krondorf vineyard, and a small parcel of northern Barossa fruit from the Hoffmann family.

White Frontignac is the earliest variety we harvest each year. In the vineyard, as the berries gently soften their acidity and increase in flavour, they taste of crunchy new season green apples, with intense aromatics of sherbet and blossom.

After a near perfect growing season, the 2022 vintage gave us perfectly balanced sweetness and acidity at harvest. The wine is incredibly aromatic, with crunchy acidity and a hint of residual sweetness.

It's also versatile as a great match with many different styles of foods and all the while holding its signature low alcohol in great balance.
