Winemaking/Viticulture

Fermentation was carried out in a combination of static and rotary fermenters under warm temperature conditions for six days. This creates balance between extracting the appropriate tannins for wine structure, and retaining fruit flavour and aromatics.

Winemaker's Comments

Late winter and spring rains allowed the canopies to flourish. Summer was mild with cool nights. This enabled the development of great aromatics and flavours to produce a deeply coloured wine with classic varietal characteristics.

Maroon in colour with purple hues. Aromas of chocolate, plum and bright red berries with subtle cedar and spices. A medium-bodied wine with vibrant flavours of plums and red cherry. Although tightly structured, the finish is rich and generous with persistent fruit flavours. Soft, velvety tannins are a feature of the supple palate.

Roast lamb with caramelised roast vegetables or Moroccan spiced curry would be a lovely accompaniment.
